Copyrights and other proprietary rights to the Open Source Software are held by the copyright holders identified in the applicable distribution or the applicable help, notices, about or source files.

If there is a conflict between the terms and conditions of this End-User License Agreement and the terms and conditions of the Open Source Software Licenses governing Customer’s use of the Open Source

Software, the terms and conditions of the license grant of the applicable Open Source Software Licenses will take precedence over the license grants in this End-User License Agreement.

If requested by Customer, Victoria Metrics will use commercially reasonable efforts to: (i) determine whether any Open Source Software is provided under this End-User License Agreement; (ii) identify the Open Source Software and provide Customer a copy of the applicable Open Source Software License (or specify where that license may be found); and, (iii) provide Customer a copy of the Open Source Software source code, without charge, if it is publicly available (although distribution fees may be applicable).

Customer may make one additional copy for each computer owned or controlled by Customer at each such site. Customer may temporarily use the Software on portable or laptop computers at other sites. Customer must provide a written list of all sites where Customer uses or intends to use the Software.
